KUNTAL DAS

Software Developer · Frontend Developer · Open to Internships

9749291451 daskuntal688@gmail.com LinkedIn GitHub Portfolio

PROFESSIONAL SUMMARY

Motivated Computer Science student with hands-on experience building full-stack web applications, integrating AI APIs, and shipping real-world products. Proficient in modern JavaScript frameworks (Next.js, React), backend development with FastAPI, and UI/UX design. Seeking a software developer internship to contribute to impactful engineering teams.

TECHNICAL SKILLS

Languages	C, Java, Python, JavaScript
Frontend	HTML5, CSS3, Next.js, React, Tailwind CSS, Framer Motion
Backend	FastAPI, RESTful API Design
Databases	MySQL, Oracle
Tools	Git, GitHub, Vercel, VS Code
Other	UI/UX Design, Technical Writing, Problem Solving

PROJECTS

Aura – Developer Portfolio Website — *Next.js · Framer Motion · Tailwind CSS* ↗ Live

- Engineered a high-performance portfolio with advanced parallax effects and physics-based animations using Framer Motion, achieving smooth 60fps interactions across all devices.
- Designed and built a pixel-perfect, responsive UI that showcases technical projects with an emphasis on visual storytelling and modern design patterns.
- Deployed on Vercel with optimized build pipeline, ensuring fast load times and production-grade performance.

Effortless Paper Generator — *Next.js · Tailwind CSS · JavaScript*

- Developed a web application that automates WBCHSE-aligned mathematics question paper generation for Classes 11 & 12, eliminating manual paper-setting overhead.
- Implemented dynamic question bank logic with configurable difficulty and topic filters, generating print-ready papers in seconds.
- Built a fully responsive UI with Tailwind CSS enabling teachers to access the tool seamlessly on any device.

YouTube Transcript Summarizer API — *FastAPI · Python · Google Gemini API*

- Architected and deployed a RESTful API using FastAPI that extracts YouTube transcripts and generates AI-powered summaries via Google Gemini API integration.
- Designed scalable backend with modular request handling, supporting concurrent summarization requests with efficient resource management.
- Reduced transcript review time significantly by delivering concise, structured summaries from lengthy video content programmatically.

EDUCATION

B.Tech – Computer Science & Engineering | Sister Nivedita University · Kolkata, WB Expected 2028

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Computer Networks, Operating Systems

EXPERIENCE

Frontend Developer (Self-Directed) | Personal & Open Source Projects 2023 – Present

- Conceptualized, designed, and shipped 3+ full-stack web applications from scratch, spanning ideation to live deployment on Vercel.
- Integrated third-party APIs (Google Gemini, YouTube Data API) and implemented AI-powered features, gaining practical experience in API design and backend architecture.

Content Writer | Freelance 2023 – Present

- Produced structured technical and creative content across diverse domains, consistently meeting editorial standards and clarity benchmarks.
- Developed strong written communication skills applied directly to technical documentation, README files, and project writeups.

ACHIEVEMENTS & HIGHLIGHTS

- Shipped 3+ live web applications accessible in production — demonstrating end-to-end product ownership as a first-year student.
- Integrated cutting-edge AI (Google Gemini) into a self-built API, showcasing initiative beyond standard coursework.
- Consistently contributing to public GitHub repositories with clean code, meaningful commit history, and documentation.
